

INDEX

- Anatomy of the Bronchial Tree, 19
- Barrett, N. R.**, The Effects and Management of Tubes used to Drain the Pleural Cavity, 62
- Barrett, N. R., and Hoyle, Clifford**, A Case of Hæmoptysis, 172
- Benign Serous and Purulent Pleural Effusions (including Tuberculous Empyema), 103
- Bronchial Carcinoma with Infiltration of the Left Auricle of the Heart, 169
- Brooks, Surgeon Captain, W. D. W.**, Paravertebral Abscess with Rupture into the Pleura or Lung, 49
- Buzzard, E. M.**, An Outbreak of Influenza in the Tropics, 80
- CASE REPORTS, 172, 177
- Chandler, F. G.**, Benign Serous and Purulent Pleural Effusions (including Tuberculous Empyema), 103
- Chronic Miliary Tuberculosis, A Case of, 177
- Dacie, J. V., and Hoyle, Clifford**, Malignant Adenomatosis (Alveolar Cell Tumour) of the Lung, 158
- Dormer, B. A., Friedlander, J., and Wiles, F. J.**, Bronchial Carcinoma with Infiltration of the Left Auricle of the Heart, 169
- EDITORIALS, 1, 47, 99, 153
- Effects and Management of Tubes used to Drain the Pleural Cavity, 62
- Erwin, G. S., and Butcher, H. G. H.**, Hæmatogenous Malignant Deposits in the Lung Simulating Tuberculosis, 166
- Extrascapular Apicolysis with Thoracoplasty, 109
- Foster-Carter, A. F.**, The Anatomy of the Bronchial Tree, 19
- Hæmoptysis, A Case of, 172
- Hæmatogenous Malignant Deposits in the Lung Simulating Tuberculosis, 166
- Hutchison, P.**, A Case of Chronic Miliary Tuberculosis, 177
- Malignant Adenomatosis (Alveolar Cell Tumour) of the Lung, 158
- MEETINGS OF SOCIETIES, 39, 93, 144, 182
- NOTICE, 45
- OBITUARIES, 95, 179
- Outbreak of Influenza in the Tropics, 80
- Paravertebral Abscess with Rupture into the Pleura or Lung, 49
- Price Thomas, C.**, Pulmonary Cavities: Their Persistence and Closure, 4
- Price Thomas, C., and Cleland, W. P.**, Extrascapular Apicolysis with Thoracoplasty, 109
- Pulmonary Cavities: Their Persistence and Closure, 4
- REVIEWS OF BOOKS, 41, 97, 148, 185
- Roberts, Lawrence**, Treatment of Intestinal Tuberculosis by Pneumoperitoneum, 138
- Treatment of Intestinal Tuberculosis by Pneumoperitoneum, 138
